

HOT ZONE OF TERRORISM

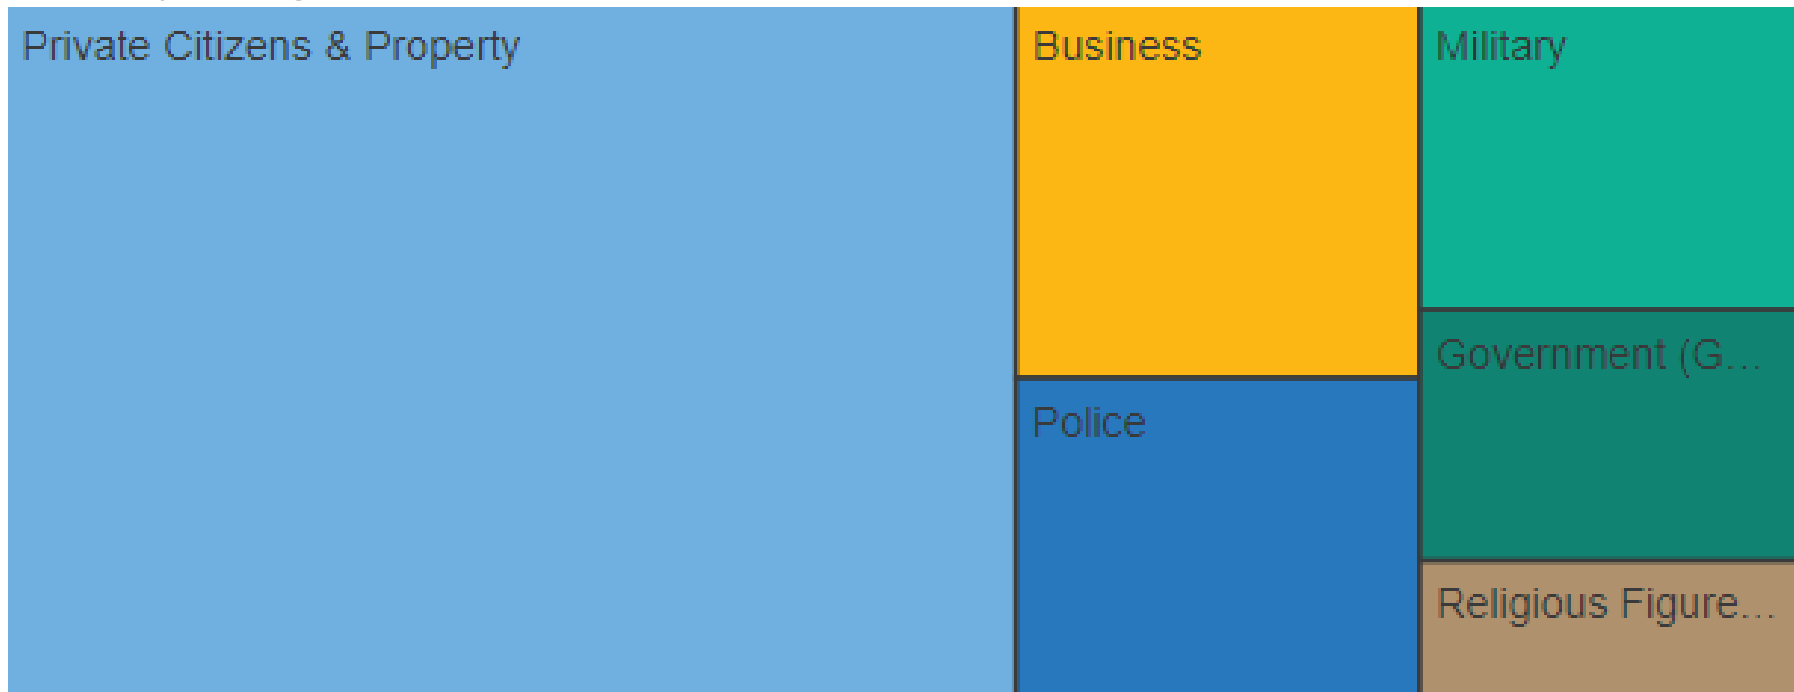

- **Attack type 1** has major influence in IRAQ. It has almost 12.93% of the World Attacks under type1.
- **Major Attack done using BOMBING/EXPLOSION.**
- **The Major Targets were:**

Private Citizens & Property	Military	Transportation
	Police	Government (G...
Religious Figures/Institutions	Tourists	Government (Di...

- **Attack type 2 has major influence in NIGERIA. It has almost 17.93% of the World Attacks under type2.**
- **Major Attack done using FACILITY/INFRASTRUCTURE ATTACK.**
- **The Major Targets were:**

- **Attack type 3 has major influence in again IRAQ. It has almost 13.56% of the World Attacks under type3.**
- **Major Attack done is UNKNOWN.**
- **The Major Targets were:**

CONCLUSION

According to the Analysis:

- + The Next Attack will be on IRAQ & NIGERIA as these two countries are most under attack.
- + This can be because of poor security system, poor Law, Government unable to manage its country properly and lastly people believe is more in fighting rather than peace as they have to defend themselves.

Recommendations

Situation can be improved, if:

- + Government makes amendments in the Law.
- + Government start improving their country's security.
- + Government should delegate its power, so that necessary steps can be taken without delay.
- + Govt. should start giving recognition to peace makers and holders. And strict action should be taken against law breakers.

THANK YOU
